How to change a bushnell rangefinder from meters to yards

Yes, with the unit off, depress the Power Button down and HOLD it for at least 5 seconds and look in the lower portion of the display, the icons will be displayed and change back and forth between Yards and Meters. How do I reset my Bushnell rangefinder? How Do I Reset My Bushnell Rangefinder Remove the battery cap on the back of the unit. Take out the battery and put it back in again. Turn on your device by pushing down on both buttons at once for 2 seconds. Is the Bushnell 850 waterproof? And bright, crystal-clear optics get you on game with speed, even in low light. For long-term dependability, the Sport 850 features rugged, rainproof housings. BatteryType: 3-volt CR2 (incl.) Rangefinder Accuracy: +/- 1 yds. Where is the mode button on a Bushnell rangefinder? The unit of measure indicators are located in the upper right portion of the LCD. To select between yards and meters, look through the monocular, depress the "mode" button (left side of the unit underneath the BUSHNELL YARDAGE PRO logo) and hold it down for approximately 2 seconds. How do you turn off the slope on a Bushnell rangefinder? To turn off the slope function just hold down the power button, which will cycle through all of the modes. Once you see yards with no slope meters, release the power button and your device will be legal for tournament play. How do I change my Bushnell from yards to FEET? To select a different unit of measure, start with the rangefinder powered off. Press and continue to hold the Fire button. "Y", "M" or "FEET" will begin flashing, with the display slowly cycling through these 3 unit options (5.7b). Release the Fire button when your desired display units are flashing. How do you turn on a Bushnell range finder? Press Power/Fire button to activate display and fire laser. Display remains active for 10 seconds. 3. Adjust Eyepiece Diopter Dial, rotating it until display appears sharp. How do I reset my Bushnell? - Hold down the bottom left-hand button and power button together for 15 seconds or until the unit switches off then turn it back on using power button. This will reboot the device and it will no longer be frozen. - The device is relatively sensitive to being "properly ejected" after being plugged into a computer. How accurate is the Bushnell 850? The Bushnell Bone Collector 850 Realtree Edge is accurate to +/- 1-yard from 5 to 850 yards. What range finder do disc golfers use? Best Disc Golf Rangefinders Rangefinder Name Distance Range Key Highlight Apex Disc Golf 10-1,500 Feet Measures Slope and Height Bushnell Sport 850 5-2,550 Feet Sponsor Professionals Wakyme Rangefinder 15-1,950 Feet Ultra Low Price Skip to main content Showing 1-10 of 24 answers After turning the rangefinder one. Hold the MODE button for about 1 second and then it will toggle between Yards and meters. Let off the button when it is on the one you desire. J.R. - October 30, 2020 2 of 6 found this helpful. Do you? | Report abuse I had a chance to have a better play of the Bushnell Tour V3 which I wrote about earlier. The first thing I wanted to do was to obviously switch it from Yard readings to Metre readings. Previously the V2 came with two buttons and the logic of switching between units was straightforward. Not with the Tour V3. Reading the manual also made it more confusing. I've found out how to make the switch and it is actually quite simple. To save you the frustration, here is how you do it. 1. Turn off your Tour V3. 2. When you turn it on again, but this time hold the button down for at least 5 seconds. 3. The readings should start interchanging between yards and meters. when it shows meter readings, hit the button again to confirm the switch. Hope that helps. Cheers.
